

Celebrating Carmenerere International Day

On November 24th, we celebrate 25 years since French expert Jean Michel Boursiquot rediscovered Carmenerere, until then believed to be extinct.

In 1993, TerraNoble was established in the Maule Valley as a winery specialized in Merlot. In 1994, when the Chilean Merlot was identified as Carmenerere, TerraNoble maintained its commitment to the rediscovered variety of which we are grateful, committed and proud.

OUR PROUD CARMENERERE FAMILY OF WINES
