

## IMPORTANT GROUP OF JOURNALISTS FROM THE UNITED KINGDOM PARTICIPATE IN A CARMENERE VIRTUAL TASTING

A group of important journalists from the United Kingdom accompanied us in a virtual tasting aimed to present TerraNoble's work with Carmeneres. For more than 25 years we have been part of Carmeneres history in Chile and we remain fully committed to its future. On the occasion, together with analyzing the development of the variety since its rediscovery in our country and TerraNoble's work, our Gran Reserva Carmeneres wine and the CA1 Andes and CA2 Costa project, which seeks to show the influence of the terroir and the potential of the Carmeneres in our country, were tasted.
