

NATURE DOES ITS WORK

We are preparing ourselves for the 2022 harvest. I think it will start with Pinot Noir from our vineyard in the Las Dichas sector in the Casablanca Valley.

Respecting our noble land and its surroundings, with our viticulturists and my team of winemakers we have been working throughout the year to ensure the best fruit that will allow us to continue crafting quality wines.

It will be my 23rd harvest and I am looking forward to what this new challenge will bring.
