

Celebrating our 25th Anniversary

We are celebrating our 25th anniversary crafting noble wines with commitment and pride. A very special moment in TerraNoble's history which allows us to look back and reflect on our achievements which are the solid foundation for years to come.

To celebrate this milestone in our history, we invited clients and specialized press to a special reunion in Dusseldorf at the renowned restaurant Zimmer no. 01 during the Prowein fair in Germany. A perfect occasion to introduce our signature: **Noble by Nature**

NOBLE BY NATURE, our signature born after 25 years crafting wines with grapes from our noble soils. The result of our search of optimal locations for specific varieties looking to express nature in flavor, texture and aroma. Wines envisaged to reflect the distinct yet subtle touches of the Andes and the Pacific Ocean, respecting the ability of our people.

Tim Atkin releases his 2019 Chile Report

Tim Atkin, Master of Wine and renowned UK wine critic recently visited Chile for his 2019 report on Chilean wines. He met with Marcelo García, TerraNoble's winemaker to taste our wines and discuss about the potential of the Maule Valley and the role of Carmenere in the evolution of our wine industry.

We are very excited with the scores our wines obtained, motivating us to continue in our quest to craft fine noble wines.
